- **What information do you collect?**

  The student portal uses a student's @intrinsicschools.org email address to verify the identity of the student that is accessing the portal.

- **How do you use the information?**

  The identity of the student is used to lookup information related to the student, e.g. student’s grades, behavior incidents, attendance information etc. located in a spreadsheet maintained by the Data and Information team.

- **What information do you share?**

  None of the information is shared with any third-party. The email address is used to for verification purposes only.
